Professional Summary

Senior Product Designer with 15+ years of experience designing digital products for enterprise organizations across banking, healthcare, entertainment, gaming, AI, telecommunications, and education.

Specialized in transforming complex business requirements into intuitive, scalable, and user-centered digital experiences across web and mobile platforms. Experienced throughout the entire product lifecycle—from discovery and research to UX strategy, interface design, motion systems, prototyping, developer handoff, and design quality assurance.

Strong background in Design Systems, interaction design, micro-interactions, accessibility, and cross-functional collaboration with product managers, engineers, and stakeholders in Agile environments.

Passionate about leveraging Artificial Intelligence to accelerate product design workflows, improve design quality, and build scalable digital experiences.

Core Competencies

Product Design

- Product Design
- UX Design
- UI Design
- Interaction Design
- User Experience
- User Flows
- Information Architecture
- Wireframing
- High-Fidelity Design
- Prototyping
- Mobile Design
- Responsive Design

Design Systems

- Design Systems
- Design Tokens
- Component Libraries
- Atomic Design
- Auto Layout
- Variables
- Scalable UI

Research

- User Research
- Benchmarking
- Competitive Anal
- UX Strategy
- Stakeholder Worl
- Product Discover

Motion Design

- Motion Systems
- Motion Design
- Micro-interaction
- Lottie
- After Effects

AI & Emerging Technologies

- Prompt Engineer.
- AI-assisted Design
- Figma Make
- AI Workflow Optim

Collaboration

- Developer Hand.
- Agile
- Scrum
- Design Reviews
- Design QA
- Product Thinking

Tools

Design

- Figma
- FigJam
- Sketch
- Adobe XD

Motion Design

- After Effects
- Lottie
- Premiere Pro

Visual

- Photoshop
- Illustrator

Development

- HTML
- CSS

AI

- ChatGPT
- Claude
- Figma Make
- AI Design Tools

Languages

Spanish — Native

English — Upper Intermediate (B2)

Professional Experience

Senior Product Designer

Globant — Corporate Hub (Glob.AI OS)

May 2026 – Jul 2026

Sole Product Designer responsible for the end-to-end design of Corporate Hub, Globant's enterprise data governance platform, creating scalable experiences for complex data ecosystems used across multiple business units.

Key Contributions

- Led the end-to-end UX/UI design of six core modules for Globant's enterprise data governance platform.
 - Designed scalable workflows and interfaces using the Mercury Design System and Design Tokens.
 - Built interactive prototypes and collaborated closely with Engineering throughout implementation.
 - Conducted Design QA to ensure high-quality product delivery.
-

Senior Product Designer (UI & Motion Design)

Globant – BAC Credomatic (Costa Rica)

Apr 2025 – Feb 2026

Contributed to the evolution of BAC's mobile banking application by designing user interfaces and establishing the product's Motion Design foundation. Collaborated closely with Product Managers and Engineers to deliver consistent, high-quality user experiences aligned with the organization's Design System.

Key Contributions

- Designed high-fidelity mobile banking interfaces following BAC's Design System.
- Established the Motion Design framework, defining reusable animations, transitions, and interaction guidelines.
- Created implementation-ready documentation and interactive prototypes to support engineering teams.
- Collaborated throughout development, performing Design QA to ensure design consistency and implementation quality.

Tools: Figma • After Effects • Lottie • Design Systems • Motion Design • Agile

Globant — Ueno Bank (Paraguay)

Product Designer

Jul 2024 – Dec 2024

Designed digital experiences for Ueno Bank's Loyalty Program, helping establish a scalable multi-brand design language capable of supporting multiple companies within the same ecosystem.

Key Contributions

- Designed scalable experiences for a multi-brand loyalty platform.
 - Conducted competitive benchmarking to support product decisions.
 - Created reusable Back Office interfaces using Design System principles.
 - Collaborated with stakeholders to balance business needs and usability.
-

Globant — LA Clippers (Intuit Dome, USA)

Product Designer

Dec 2023 – Jul 2024

Designed premium digital experiences supporting the Intuit Dome ecosystem, creating intuitive interfaces for one of the most technologically advanced sports venues in the world.

Key Contributions

- Designed premium mobile experiences for the Intuit Dome ecosystem.
 - Created reusable UI components and interaction patterns.
 - Collaborated with Product Managers, Engineers, and Designers in Agile teams.
 - Ensured consistency across multiple fan-facing digital products.
-

Globant — Alsea (Spain)

Product Designer

Jan 2023 – Dec 2023

Collaborated on the design of enterprise digital products supporting one of the world's largest restaurant operators, focusing on usability, scalability, and cross-functional collaboration.

Key Contributions

- Designed enterprise applications from wireframes to high-fidelity interfaces.
 - Applied Design System components across multiple digital products.
 - Collaborated with developers to ensure implementation quality.
 - Participated in research and design validation activities.
-

Globant — VOV Gaming Platform (Saudi Arabia)

Product Designer

Jul 2022 – Jan 2023

Designed digital experiences for an international gaming platform, creating intuitive interfaces that balanced usability, engagement, and visual consistency across the product ecosystem.

Key Contributions

- Designed engaging web experiences for an international gaming platform.
 - Conducted UX research and competitive analysis.
 - Created reusable UI components and interaction patterns.
 - Collaborated with engineering teams throughout implementation.
-

Globant — Keralty (Google Health Initiative, Colombia) **Product Designer**

Aug 2021 – Jul 2022

Worked on healthcare products designed for multiple digital channels, adapting complex healthcare services into intuitive user experiences while collaborating with stakeholders, product teams, and engineers.

Key Contributions

- Designed healthcare products across web, mobile, and internal platforms.
 - Created user flows, wireframes, prototypes, and high-fidelity interfaces.
 - Collaborated with stakeholders to define MVPs and product priorities.
 - Applied Design System standards across multiple healthcare solutions.
-

IOV (Argentina) **UX/UI Designer | Team Lead**

Apr 2020 – Aug 2021

Led design initiatives while supporting branding and digital communication strategies, combining UX/UI design with leadership responsibilities across multidisciplinary teams.

Key Contributions

- Led UX/UI initiatives across digital products and branding projects.
 - Designed user-centered experiences aligned with business objectives.
 - Coordinated multidisciplinary teams and mentored junior designers.
 - Strengthened collaboration between Design, Marketing, and Product.
-

Overactive (Uruguay)

Product Designer

Mar 2018 – Jan 2020

Ceibal Kids — Educational Platform

Designed educational digital experiences focused on usability, accessibility, and engagement for children and educational institutions.

Scotiabank — Mobile Banking

Designed digital banking experiences with emphasis on usability, consistency, and efficient customer journeys.

Key Contributions

- Designed digital products for Scotiabank and Ceibal Kids.
 - Conducted UX research, wireframing, prototyping, and UI design.
 - Collaborated with developers to ensure accurate implementation.
 - Delivered user-centered experiences for banking and education platforms.
-

Inswitch Solutions (Uruguay)

UX/UI Designer | Visual Designer

Aug 2014 – Feb 2018

Designed digital products for international clients across web and mobile platforms, combining UX, UI, branding, and front-end collaboration to deliver scalable digital experiences.

Key Contributions

- Designed responsive web and mobile products for international clients.
 - Created user-centered interfaces balancing usability and business goals.
 - Collaborated with multidisciplinary teams throughout delivery.
 - Produced implementation-ready UI assets and specifications.
-

Tavano Team (Uruguay)

Web Designer

Nov 2012 – Aug 2014

Designed and developed eCommerce experiences for international clients, focusing on usability, conversion, and platform consistency.

Key Contributions

- Designed responsive eCommerce experiences for international clients.
 - Adapted interfaces to the NetSuite platform.
 - Collaborated closely with development teams.
 - Delivered conversion-focused digital experiences.
-

Fira Communication (Uruguay)

Graphic & Web Designer

Feb 2005 – Nov 2012

Started a professional career designing digital and print communication materials for national clients, building the visual design foundation that later evolved into Product Design.

Key Contributions

- Designed websites, branding, and digital communication materials.
- Developed packaging and visual identity projects.
- Collaborated directly with clients from concept to delivery.

Education

Bachelor's Degree in Graphic Design

ORT University — Uruguay

2002 – 2007

Bachelor's Degree focused on Graphic Design, Visual Communication, Typography, Branding, Editorial Design, Digital Media, and Design Methodologies.

PROFESSIONAL DEVELOPMENT

IA Heroes Pro — AI for Designers (*In Progress*)

Learning Heroes

Prompt Engineering • AI Agents • AI Workflow Automation • Generative AI for Product Design
