Career History

Globant, Glob.AI OS - Corporate HUB

May 2026 – July 2026

UX/UI Designer:

- Designing end-to-end UX/UI for CorpHub, Globant's enterprise data governance platform, covering six core modules — DataModel, Datasets, Ontologies, DataStores, Client Data Sources, and Home & Navigation — as the sole designer on the product.
- Prototyping interactive screens in HTML before Figma handoff, applying CorpHub's design tokens and Mercury component library to deliver consistent, audit-ready interfaces aligned with the product's visual system.
- Collaborating closely with engineering leads during sprint reviews, validating design feasibility, identifying inconsistencies between specs and implementation, and ensuring design quality across the delivered product.

Globant, BAC Bank - Costa Rica

Apr. 2025 – Feb. 2026

Visual and Motion Designer:

- Leading Motion Design efforts by creating a scalable animation library, defining transitions, micro-interactions, and motion guidelines to be reused consistently across the mobile banking app.
- Designing UI screens using the product's design system, applying existing components and interaction patterns to ensure visual consistency, usability, and alignment with established

standards.

- Producing detailed Motion Design documentation for handoff, clearly communicating animation behaviors, timings, and interaction logic to support accurate development implementation.
- Working closely with the development team during QA and product reviews, validating motion and UI behavior, identifying inconsistencies, and ensuring design quality across the final product.

Globant, Ueno Bank - Loyalty Program - Paraguay

Jul. 2024 – Dec. 2024

Visual Designer:

- Creating a benchmark to see the behaviors and visual resources used by different brands when referring to a loyalty program.
- Proposed a library and a design system with a unified look and feel, applicable to the entire group of companies that integrated in the client.
- Designing a back office, as the only internal product to date that uses a multi-brand design.

Globant, LA Clippers - Intuit Dome - United States

Dec. 2023 – Jul. 2024

Visual Designer:

- Creating attractive and functional user interface designs that provide an intuitive and enjoyable user experience.
- Designing visual elements such as icons, graphics, and illustrations that enrich the user experience and enhance the usability of the product.
- Maintaining visual coherence in all aspects of design, including color selection, typography, and image style, to ensure a consistent and recognizable user experience.

Globant, Alsea - España

Jan. 2023 – Dec. 2023

Visual Designer:

- As a team, created a visually appealing and user-friendly interface that met the needs of the target audience.
- Research was conducted to understand the users needs and preferences, as well as collaborating closely with the development team to ensure that the design is technically feasible.
- Building wireframes and mockups to establish the overall layout and functionality of the interface. Designing visual elements, including color scheme, typography, icons, and imagery.
- Ensuring the final product was not only aesthetically appealing but also functional and easy to use. Figma was a valuable tool for creating the design and collaborating with the development team throughout the process.

Globant, VOV Gaming Platform - Saudi Arabia

Jul. 2022 – Jan. 2023

Visual Designer:

- Creating an intuitive and visually cohesive interface that enhances the user experience. Researching industry best practices, defining UI components, and ensuring consistency across

the product.

- Collaborating with the development team was essential to align the design with technical requirements and guarantee a smooth implementation.

Globant, Keralty - Google - Colombia

Aug. 2021 – Jul. 2022

UX/UI Designer:

- Following a design pattern given by a design system, we adapt the product to an mvp according to the scope of the project.
- Adapting all the flows for the different products that the project required: native app, website and command center.
- Interviewing with stakeholders to verify guidelines and results of tests with users.
- Building wireframes and mockups using Figma in high fidelity.

IOV, Visual Designer - Argentina

Apr. 2020 – Aug. 2021

UX/UI Designer (Team Leader):

- Collaborating with the Marketing team to enhance communication strategies through design and UI/UX improvements.
- Branding in Social Networks.

Overactive, Uruguay

Mar. 2018 – Jan. 2020

App Education - Ceibal Kid

UX/UI Designer:

- Researching and benchmarking at the beginning of the design process.
- Building of wireframes in low fidelity for subsequent approval of flows with the client.
- Creating high fidelity mockups with Sketch and prototyping using Invision.
- Collaborating with the development team, exporting files for further development.

App Banking - Scotiabank

UX/UI Designer:

- Creating low-fidelity wireframes for the approval of flows with the client.
- Designing in high fidelity with Sketch and the realization of prototypes with Invision. The design process included illustration of icons following an existing library pattern.
- Collaborating with the development team.

Inswitch Solutions, Uruguay

Aug. 2014 – Feb. 2018

Visual Designer (Team Leader):

- Designing web, graphic and mobile products for clients abroad.
- Working in HTML and CSS for different products.
- Branding.

Tavano Team, Uruguay

Nov. 2012 – Aug. 2014

Web Designer:

- Creating and designing ecommerce web pages.
- Adapting ecommerce web design and layout to the NETSUITE platform.

Fira Communication, Uruguay

Feb. 2005 – Nov. 2012

Graphic and Web Designer:

- Creating designs for Conaprole packaging.
- Designing web pages for national clients such as Conaprole and Cosem, among others.
